EDUCATION

National Chengchi University

Taipei, Taiwan

Bachelor of Commerce in Management Information Systems

Expected Jun 2027

- **GPA:** 4.15 / 4.3 (Academic Excellence Award, Fall 2025)
- **Relevant Coursework:** Programming Language, Introduction to Computer Science, Computer Programming, Data Structures, System Designing, Database Management Systems, Artificial Intelligence, Business Data Communication

WORK & LEADERSHIP EXPERIENCE

HCT Logistics

Taipei, Taiwan

Summer Internship, Information Technology Jul 2025 – Aug 2025

- Redesigned and deployed 4 corporate website pages, including the homepage, thank-you page, company introduction, and supply chain page, with responsive layouts optimized for mobile and tablet viewing.
- Corrected SQL filtering logic for AR/AP daily operational queries involving monthly order numbers and sender records, consolidated three charts into a single dynamic query view, and enhanced internal TMS order inquiry and tracking interfaces for mobile display and testing needs.

Deloitte Taiwan

Taipei, Taiwan

Semester Internship, Cyber Intern Feb 2026 – Present

- Analyzed security and governance risks in enterprise adoption of GenAI across multi-cloud environments, focusing on IAM, data privacy, model security, API integration, and compliance.

NCCU Commerce Career Ambassador

Taipei, Taiwan

Marketing Director Apr 2024 – Jun 2025

- Led a 4-member marketing team for events; owned IG/FB content and cross-team coordination—designed and published 30+ posts (Adobe Illustrator), produced Reels with video editors, and managed IG ~1k and FB ~4k followers; additionally planned the “CCA Family” event and aligned timelines with program owners.
- Contributed to planning 5 College of Commerce events and co-hosted 2 camp programs (~70–80 attendees): a high-school exploration camp and a freshman/sophomore academic-career camp.

SKILLS, PROJECTS & COMPETITION

Languages: English (TOEFL iBT MyBest Score: 5/6), Mandarin Chinese (Native)

Programming & Frameworks: Java (Spring Boot), JavaScript (Vue.js, Node.js), Python (pandas), R

Certifications & Training: AWS Certified AI Practitioner, Google Analytics Certification

Independent Projects

- Investment Analysis Platform (Let's-Stock)—Automated stock data ingestion; integrated GNews and Gemini AI for financial news summarization; designed responsive UI with Tailwind CSS

Competition

- National Humanities and Social Sustainability Action Innovation Competition (Final Round) — Developed a full-stack prototype integrating web UI, backend APIs, database, and AI services; connected LLM chat and voice modules and evaluated geofencing as a safety feature for real-world use cases.
